

8841 LS. AN ELEGANT LIGHT COLUMN FOR PRESTIGIOUS TASKS.

- On the slender light column, the transitions between supporting column and luminaire head are hardly visible
- Thanks to innovative MLT <sup>10</sup> technology, the light effects can be individually adapted to on-site needs via the light distribution properties
- The light column is optionally available with a height of 2.60 m or 3.60 m
- The 8841 LS is part of an overall product range also containing bollards and wall solutions
- A version with continuous underground support provides additional protection from vandalism
